Mastering Intuition for the Age of Spirit

Combined Lecture, Chanting and Naam Yoga Workshop

Intuition is best described as an inner capability, a latent potential to raise the consciousness of the mind so that the perceptive ability of the individual shifts, and he is able to accurately perceive the truth beyond the illusion of reality. It is the powerful voice of the soul that tells us when something is working or not, and when someone is well meaning or not. It is the all-knowing faculty of the

soul that enables man to experience direct perception of truth without the intermediary of the senses. When our intuition is fully active, we find the answers to the mysteries of the universe.

Gurunam will guide the class in activating and attuning the spiritual centers that increase intuition through the use of powerful sound vibration, rarely taught yogic techniques and resonance harmonization that balance the energy meridians. With his amazing ability to accurately analyze the depths of the aura, Gurunam teaches each class based upon the needs of those in attendance and spontaneously tailors it so as to ensure the energy field of the participants has been beneficially and profoundly affected. Bring yoga mats and notebooks and wear comfortable clothing.

The Kabbalah of Green and the Code of the Masters

A Two-Day Universal Kabbalah and Naam Yoga Intensive

The origin of abundance may be accessed by spiritually connecting with the mathematical center of the Universe. The processes and flow of the natural world are archetypically identical to the growth of business and our personal estate. A universal attitude secures success in both the material and spiritual worlds. In this age of spirit, it is invaluable, for it shortens the path that leads to the higher spiritual spheres. This two day immersion is designed to guide the student in mastering the building blocks of Universal Kabbalah while delving into important Kabbalistic

tools for prosperity and relationships. This class is open to newcomers as well as those who attended previous classes. Topics include: working with the archangels, seed sounds, predicting relationship patterns prior to starting them and much more. Every morning will begin with a Naam Yoga and meditation class to prepare the mind and spirit for most effectively integrating this vital information. Students may attend one or both days. Includes introduction yoga certification class Sunday morning.

Location: Carpinteria Woman's Club 1059 Vallecito Rd, Carpinteria, CA 93013

Sunday, May 25, 8:30am–11:30am

Naam Yoga Certification Introductory Class

This class is an integral part of the two day intensive, designed to allow all participants to delve further into the experience and principles of Naam Yoga. It will additionally provide an opportunity for individuals considering Naam Yoga certification, to familiarize themselves with the curriculum of the 200 hour training. The class includes physical yoga, sound vibration and mantra, the science of mudra (hand postures) and their healing application to the body's meridians, Universal Kabbalah's application to Naam Yoga with little known Kabbalistic movement and mantra, breath work and much more. Teacher training is excellent for those wishing to improve personal health and wellbeing as well as for perspective yoga/meditation teachers. Those who attend will receive \$150 off the three week California Teacher Training in August, 2008. Free for all 2-day intensive participants, \$25 for non-participants.
